Empowering Digital Education: The Erasmus+ DERHE Project

The DERHE (Digital Education Readiness in the Field of Higher Education) project is an Erasmus+ Capacity Building in Higher Education initiative aimed at enhancing digital education capabilities within higher education institutions. The project focuses on developing strategies and tools to improve digital readiness, ensuring that institutions can effectively integrate digital technologies into their educational offerings. For more information, please visit the official website:

Trening:

Vizija budućnosti „AI spaja ljude“

kako biti u toku sa brzim i radikalnim promjenama poslovnog/društvenog okruženja i osigurati održivost i otpornost prehrambenih sistema

Cilj treninga

Ovaj modul se fokusira na potrebu stalnog unapređenja poslovanja i to u pravcu uvažavanja brzih tehničko-tehnoloških promjena, koje oblikuju promjenu stila življenja, a sve u pravcu prilagođavanja i zaustavljanja klimatskih promjena (Farm to fork strategija, Green Agenda for Western Balkan, ESG standardi is). Cilj je, između ostalog, upoznati polaznike sa širokim rasponom alata umjetne inteligencije koji se mogu koristiti za sistemski, sveobuhvatno i brzo razumijevanje trendova u stalno promjenjivom poslovnom okruženju, a posebno u lancu snabdjevanja poljoprivredno-prehrambenim

INOVACIJE

Moderni koncept Q – „vrijednošću vođen“

STALNO UNAPREĐENJE, je u suštini filozofija, kultura kvaliteta, koja treba da se orijentise prema uvođenju novih i inovativnih inicijativa koje prate promjene u okruženju i izazove sa kojima se kompanija suočava (globalni, lokalni i individualni). Na taj način se gradi i sposobnost za inoviranje, što je podloga za jačanje konkurentnosti, održivosti i otpornosti. Tako kompanije jačaju vjerovatnoću uspjeha, odnosno snižavaju rizik od neuspjeha
